

Figure 3 — Spatial partition and whole-region transfer

NO HELD-REGION ARM EXISTS for the 2021–2023 held-out window

Development-period figure (Stage-13c region-transfer evidence, 2019-01-01 to 2020-12-31). The 2021–2023 conventional holdout emits no held-region arm, so this figure is not rendered from the conventional metrics CSV. See paper section 4.4 for the development-period three-arm values.
