

External arm and failure disposition, held-out 2021–2023

(a) External (site-ID-disjoint) cohort against the temporal cohort

(b) Failure disposition (5 sites excluded)

site	status	reason
03058000	excluded	no WTEMP observations
03456991	excluded	failed to acquire usgs-nwis-dv after 3 attempts ...
03544970	excluded	no WTEMP observations
04043238	excluded	failed to acquire usgs-nwis-dv after 3 attempts ...
14150800	excluded	failed to acquire usgs-nwis-dv after 3 attempts ...

The external cohort is site-ID disjoint and history-dependent; it is not an ungauged-basin arm.

The outcome-QC waterfall (Table 4.10) is not reported for the held-out window.
